Easy Teach N12

Robust School Trolley for 12 Notebooks

The future is finding its way into the classroom! Easy Teach N12 is a sturdy box case that simplifies modern teaching enormously. Tailored to your needs, you can store, charge and synchronise* up to 12 notebooks simultaneously. Thanks to the robust castors the trolley can be easily transported from classroom to classroom.

Each notebook is stored in a separate compartment and powered via an AC adapter plug. However, the AC adapters are stowed away in a separate bottom compartment and fully cabled. There is a plug connection to the mains supply on the case exterior. The built-in inrush current limiter prevents the system from exaggerated voltage while putting it into service. An active fan ensures that the AC adapters are reliably cooled and two additional passive vents guarantee optimal air circulation within the box case. Optionally, a routing switch can be integrated into the bottom compartment to easily connect devices to the network. With the Easy Teach N12 you will have the appropriate equipment for easy teaching in the digital age.

*access point/switch required; not included in the scope of delivery

Screen size:	No inches
Art.No:	D30966
Weight:	23.0kg /50lbs,11.3 ounces
Material:	Aluminium
Compatible devices:	N/A
	N/A
	≤ 12.40 x 0.98 x 11.42 inches ≤ 315 x 25 x 290 mm

- Space for 12 notebooks - customized to your needs
- Internal power and network cabling
- robust castors and pull-out trolley lever
- Reinforced bottom and side panels
- 220V IEC power socket; inrush current limiter; 3m power cable
- RJ45 socket for network connection
